The purpose of this Induction Program is to make the students feel comfortable in their new environment, open them up, set a healthy daily routine, create bonding in the batch as well as between faculty and students, develop awareness, sensitivity and understanding of the self, people around them, society at large, and nature. The Induction Program will also be used to rectify some critical lacunas, for example, English background, for those students who have deficiency in it. The following are the activities under the Induction Program in which the student would be fully engaged throughout the day for the entire duration of the program:
